

# 2009 Buy-Out Prices for Your Water Heater

Use this table to find the buy-out price if you decide to purchase your rental water heater from Direct Energy. Simply find the column matching the size and type of your rental water heater and the age of your tank.

## Age of Your Tank

**Replacement Water Heater:** The age of your tank is determined based on the installation date shown on the installer's sticker on your water heater. The type of tank is as indicated on the rental rate chart to the left.

**The price for water heaters** less than one year old is based on the equivalent installed cost through a mass market retail outlet. This includes an amount to reflect our typical installation charge.

**Age Discount:** Buy-out prices shown are determined by amortizing the starting price over the expected useful life of the water heater.<sup>††</sup>

**Remember:** When you purchase your water heater from Direct Energy, our rental agreement ends. You will be under no obligation to pay rent for subsequent months, and you will be responsible for service and maintenance of the water heater.

**Need help?** The chart shows prices for almost all types of Direct Energy rental water heaters. If your water heater is not covered or if you are not sure of the type of water heater you have, or when it was installed, please call one of our rental specialist at 1-800-493-3034.

| Buy-out schedule: 2009 Installations <sup>^</sup> (Prices below DO NOT include GST) |                                      |                              |                                   |                                 |                              |                              |                       |                         |                         |

## Understanding your Tankless Water Heater

They operate differently than a tank-style water heater. They provide consistent water temperature while monitoring water flow. Minimum and maximum flow rates should be considered before changing any water fixtures in the house. Unit and standard vent kit are property of Direct Energy.

<sup>1</sup> All tanks sizes in U.S. Gallons. 1 U.S. Gallon = 0.8327 Imperial Gallons = 3.7854 Litres.
